

Acoustic Timber™

● Acoustic Timber™ Raft™
in W3 Oak

● Autex Acoustics®,
New Zealand

The best of both worlds

Acoustic Timber™ is a beautiful, high-performance acoustic treatment designed to realistically imitate timber. Lightweight and semi-rigid, Acoustic Timber is made from 100% polyester fibre—giving you the option of an authentic timber look that achieves a high standard of fire compliance, and helps you meet seismic requirements. To ensure a natural, high-end finish, we have hand-picked a selection of premium woodgrains taken from real timber veneers—digitally printed on to the panel surface with a safe, water-based, UV cured ink. Available in Cube™ Panels and Frontier™ Acoustic Raft styles Beam 100 and Beam 250, Acoustic Timber is suitable for small to large scale wall and ceiling applications.

Customisation

As creators and innovators, we understand your pursuit of the bold and unusual, the rare and exceptional—the brave, colour-outside-the-lines ideas. Every space you design is unique, therefore, every element—from floor to ceiling—should be tailored to fit. Our customisation tools offer unique avenues for creative expression to help you achieve your vision—all that's left to explore are the boundaries of your imagination.

Our customisation capabilities include Precision Cut and Peel 'n' Stick.

Caring for the environment

Acoustic Timber is manufactured using 100% polyester fibre and contains a minimum of 60% recycled fibre (from PET plastics). Our products are designed to be recycled at the end of their life too.

We have continual improvement programmes in which we implement a range of initiatives to mitigate the environmental 'hotspots' that we have identified. Our products are GreenRate Level A, Health Product Declaration (HPD), and CDHP Standard certified.

Acoustic Timber is made from Cube™ which is Declare certified to be Red List free and can be used in Living Building Challenge projects. Autex has a high functioning Environmental Management System (ISO 14001) to enhance our environmental performance and contribute to sustainable development.

Declare.
